

JATIN SAXENA

1st Year BCA Student | AI & IoT Specialisation | Aspiring AI/ML Intern

Jaipur, Rajasthan, India | jatinsaxena2727@gmail.com | LinkedIn: /in/jatinsaxena | GitHub: /jatinsaxena

PROFESSIONAL SUMMARY

Driven 1st-year BCA student specialising in Artificial Intelligence & IoT at ICFAI University Jaipur, seeking an AI/ML internship to apply foundational skills in a real-world setting. Proficient in AI tools and prompt engineering, with genuine curiosity for machine learning concepts and data-driven problem-solving. Known for active listening, creative thinking, and a disciplined work ethic. Ready to contribute meaningfully to AI/ML teams and learn at pace.

EDUCATION

Bachelor of Computer Applications (BCA) — Specialisation: AI & IoT

ICFAI University Jaipur | Jaipur, Rajasthan | 1st Year | Expected Graduation: 2027

- Studying core subjects including AI fundamentals, IoT systems, programming, data structures, and networking.
- Actively engaged in practical AI tool usage and prompt engineering as part of curriculum and self-learning.

SKILLS

Technical Skills

- AI Tools: ChatGPT, Claude, Gemini, Midjourney, and other generative AI platforms
- Prompt Engineering: Crafting structured, goal-oriented prompts for productivity, coding, and creative tasks
- Programming: Python (fundamentals), HTML/CSS, basic scripting and automation
- IoT: Foundational knowledge of IoT architectures, sensors, and connectivity protocols
- Coding: Problem-solving through code; comfortable with logic building and debugging

Soft Skills

- Active Listening — strong ability to understand requirements and empathise with stakeholders
- Problem Solving — analytical thinker with a structured approach to challenges
- Creativity — artistic sensibility applied to design thinking and ideation
- Adaptability — quick learner open to new tools, technologies, and methodologies
- Communication — clear and concise in both written and verbal expression

PROJECTS

AI-Powered Chatbot (Prompt Engineering Project)

- Designed and iterated a series of custom prompts to build a domain-specific Q&A assistant using Claude/GPT.
- Focused on tone calibration, hallucination reduction, and structured output generation.

Smart Home IoT Concept (Academic Project)

- Designed a conceptual smart home automation system incorporating temperature, motion, and light sensors.
- Prepared a detailed technical report covering architecture, protocols (MQTT, HTTP), and use cases.

Digital Art Portfolio (Personal Project)

- Created a collection of AI-generated and hand-crafted digital artworks using tools like Midjourney and Canva.
- Combined artistic sensibility with AI prompt techniques to produce themed visual compositions.

CERTIFICATIONS

Generative AI Mastermind — Outskill

- Certificate of Completion awarded by Outskill (Founder: Vaibhav Sisinty) for successfully completing the Generative AI Mastermind programme.

DSA for Product-Based Companies Skills — ExcelR EdTech Pvt. Ltd.

- Certificate of Participation for completing a 30-hour Live Training Programme on Data Structures & Algorithms for Product-Based Companies.
- Held: 9th February 2026 to 27th February 2026 | Cert No: 131616/EXCELR/EDL/10032026

Yuva AI for All — NASSCOM FutureSkills Prime / INDIAai

- Certificate of Participation awarded by IT-ITeS SSC Nasscom under the MeitY–Nasscom Digital Skilling Initiative for completing the Yuva AI for All programme.
- Date of Issue: 29th March 2026

INTERESTS & HOBBIES

Art & Design — Digital illustration, sketching, and AI-assisted visual creation.

Fitness — Regular gym-goer; values discipline, consistency, and mental resilience.

Problem Solving — Enjoys puzzles, logic challenges, and building creative solutions.

Technology Exploration — Stays current with AI advancements, new tools, and emerging tech trends.
